INDEX TO VOL. LXXV.

THREE MONTHS ENDING DECEMBER, 1911.

(B)—SUBJECT INDEX.

In this section of the Index an attempt is made to enter the notices in such a way as to enable all references in the "Journal" to similar goods and similar matters to be readily found. For this purpose most of the notices are grouped under comprehensive headings, and are not entered separately under the heading of the particular article, &c. In some of the more important cases, however, a cross-reference will be found there. The following is a list of some of the sections used, with a rough analysis of their contents:—

	See Heading
Openings for railway construction, railway material and rolling stock	Railway material.
Openings for tramway construction, tramway material and rolling stock...	Tramway material.
All other notices respecting railway construction, traffic, rates, &c.	Railways.
Openings for port and harbour works and plant and material therefor, dredging, and river improvement works	Harbour works.
Vessels of all kinds (except dredgers) and construction thereof	Ships and shipbuilding.
All other notices respecting ports, steamship services, and waterways	Shipping.
Mineral deposits and production, mining regulations, unmanufactured metals (except as regards certain of the most important minerals, such as coal, iron, mineral oil)	Mining, minerals, and metals.
Agricultural, mining, and industrial plant (except engines, electrical plant, &c.)	Machines and machinery.
Iron ore, and manufactured iron and steel (except structural work, rails, &c.)	Iron and steel.
Small metal goods, tools, cutlery, &c.	Ironmongery and hardware.
Electric generating, conducting, and lighting plant (except for railways and tramways), telegraph and telephone material	Electrical material.
Sanitation, sewerage, and water supply of towns ...	Sanitary and water supply works.
Motor and other vehicles	Vehicles.
Raw textile materials	(Under their respective names).
Cloth and other textile goods	Textiles.
Wearing apparel	Clothing.
Enquiries for agencies and agents	Agencies and Agents.

In the Subject Index tender notices of purely passing interest (which are generally out of date by the time of the publication of the Index) are not entered at all; they may be found under the various countries in the Geographical Index. This is also the case with a large number of commercial enquiries regarding Canada, received through the High Commissioner in London for the Dominion.

Notices of tariff changes and customs regulations are not indexed according to subject, except in the more important cases, owing to the impracticability of giving a list in any way complete of references to each article.
